Good Moring Steve,

I have spoken with Greg Sorozan from Nage and Ann Looney from Moses.

They are aware that an alleged breach in protocols is being investigated this week- taking advantage of the slower court work load. I gave them the names and times of the individual interviews and stated that this is who you have scheduled to meet with and the investigation might lead you to interview additional people and they will be afforded union representation as well.

I did raise the concerns with Mr. Salemi's representation and noted that perhaps they could consider not having Mike Lawler sit in as he is a chemist also assigned to the lab and may in fact end up being interviewed himself. Ann will be in touch with employees and will coordinate having someone from Moses present. They know that management is telling the employees this morning about the interviews on Wed and Thursday and their right to union representation.

I did note that you only have one chemist on the interview schedule are you intending to interview more?

Thanks

Please let me know if we can be of any assistance.

Marianne
